

PETROCHEMICAL STANDARDS

CPAchem started producing and selling a new range of standards for petrochemical industry and general laboratory use. This range includes Single and Multi-parameter standards for determination of the following physical properties of diesel, gasoline, jet fuel and others:

- Cold Filter Plugging Point
- Cloud point
- Density
- Distillation
- Flash point
- Pour point
- Viscosity

All standards are Certified reference materials, manufactured under ISO 17034, ISO 17025 and:

- have 24 months shelf-life;
- are supplied in tamper evident UN compliant security packs.
