

Standard Opening Crimp Top Vials, 12x32mm, 11mm Crimp Finish

Vials

Neck finish allows use of patented Poly Crimp™ Seals or standard aluminum seals. Designed to work in Agilent and other autosamplers. Choose from clear or amber Type I borosilicate glass. Available with graduated marking spots which can be written on with a #2 pencil.

2.0mL Graduated Marking Spot Vial

2.0mL Round Bottom Vial

The new Interlocked™ Vial is composed of a glass vial and a clear glass insert fused together thus eliminating any movement of the insert and concerns about contaminants around the fused seam/space between the neck of the vial and the insert.

Shelf Pack - 100 pieces; Case Pack - 1000 pieces

Cat. No.	Description
32011-1232	2.0mL Clear Vial
32011-1232A	2.0mL Amber Vial

Standard Opening Crimp Top Vials, 12x32mm, 11mm Crimp Finish

Closures

Available in a variety of colors for easy sample identification.

A crimp cap constructed of plastic that fits virtually any 12x32mm sample vial with a crimp style finish. Available in a variety of colors for easy sample identification.

Limited Volume Inserts

Inserts are available preassembled with a polymer bottom spring. The polymer spring acts as a shock absorber that protects against breakage if the needle bottoms out. The conical design permits complete sample removal.

100µL Polypropylene Inserts

Aluminum Seals (11mm)

Shelf Pack - 100 pieces; Case Pack - 1000 pieces

Cat. No.	Description
5110-11	11mm Silver Seal, 10mil PTFE
5120-11	11mm Silver Seal, 10mil Polypropylene
5140-11	11mm Silver Seal, Clear PTFE/Red Rubber
5140-11X	11mm Silver Seal, PTFE/Natural Red Rubber
5150-11	11mm Silver Seal, PTFE/Silicone
